FUNERAL SERVICES FOR CLAYTON STAFFORD

Residents of this community were deeply shocked by the tragic death of Clayton Myrtle Stafford, 15-year-old son of Mr. and Mrs. W. Stafford, late Saturday afternoon. The boy was driving a newly overhauled tractor from Calgary out to his parents' farm east of town and had got within a mile and a half of the farm when the machine slipped from the muddy grade and completely overturned, crushing him to death beneath it.

The accident was discovered at about 7:30 p.m., when Mr. and Mrs. W. G. Landmore came upon the overturned tractor while on their way to town. On investigating, Mr. Landmore found the boy to be dead and being unable to move the machine, rushed to town for assistance. Lance Corp. D. Cameron, R.C.M.P., and a number of men went out at once and succeeded in lifting the tractor from the boy's body. Dr. W. H. Whillans examined the remains and found that he had been instantly killed.

Clayton Myrtle Stafford was born in Crossfield and had lived on the farm here all his life until moving to Calgary with the family last fall.

He is survived by his parents, Mr. and Mrs. W. W. Stafford of 225 Ninth Ave. N. W., in Calgary; a younger brother, Eldon, at home; an older brother, Mervin, who is operating the Stafford farm; his grandparents, Mr. and Mrs. C. C. Stafford of Crossfield and Mrs. Ellen Anderson of Calgary; and numerous other relatives in the district.

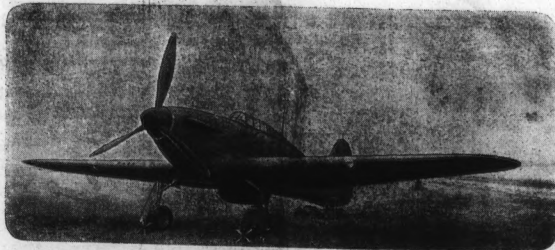

Funeral services were conducted in the Crossfield United Church on Wednesday afternoon, at two o'clock, by the minister, Rev. S. R. Hunt, assisted by Rev. J. R. Brown of North Hill United Church, Calgary. Mr. Hunt took for his text, Isaiah 43: "Fear not, I have redeemed thee; I have called thee by thy name, thou art mine. When thou passest through the waters, I will be with thee; and through the rivers they shall not overflow thee; when thou walkest through the fire, thou shalt not be burned, neither shall the flame kindle upon thee, for I am the Lord thy God, the Savior." He gave a message of comfort and faith, expressing the deep sympathy of all to the bereaved ones in the sudden passing of this bright young life. Mr. Brown brought the sympathy of North Hill United Church with whose youth organizations Clayton had become associated since moving to Calgary. Choir and congregation joined in singing the hymns, "Safe in the Arms of Jesus" and "God be With You Till We Meet Again". Mrs. P. H. Fleming sang the solo "Beautiful Isle of Somewhere."

Six young boys, friends of the deceased, were pallbearers: Eugene Wickerson, Hugh Wickerson, Roy Sackett, Robert Mitchell, Ross Bills all of Crossfield, and James Cloe of Calgary. Burial was in the local cemetery.

The large number of friends attending filled the church and church parlor to capacity and many had to remain outside. Floral offerings were many and very beautiful.

The sympathy of the entire community goes out to the family in their bereavement.

A Fighter Plane For Britain

This Hawker "Hurricane" machine, one of the types with which the Royal Air Force is now equipped, is the first military aircraft built for the British Air Ministry in this country to be tested and accepted by British Government agents. The "Hurricane" is a single-seat fighter, mounting eight machine guns in the wings. This machine was built by Canadian Car and Foundry Co. Ltd., at Fort William.

Mr. and Mrs. Wilson Stafford and family wish to thank their many friends for the beautiful floral tributes and for the many kindnesses shown them during their sad bereavement.

LOVELY HOUSE WEDDING FOR JEAN WHILLANS' IN TORONTO

The home of Major and Mrs. Leslie E. James, Toronto, were the setting of a pretty ceremony last Friday evening, March 1st, when Miss Jean Agnes Whillans, daughter of Dr. and Mrs. D. W. Whillans, was married to Mr. Delbert Ferguson Prior, son of Mrs. Prior and the late Walter Prior of Toronto. Rev. Joseph Wasson, assisted by Rev. Elmer Young, officiated and the wedding music was played by Miss Edythe James.

The bride, who was given in marriage by Major James, wore an effective frock of white crepeintrigue with white veil held by a head-dress of white lilacs, and carried a bouquet of white carnations and lily-of-the-valley. Miss Doris Dear, her attendant, was gowned in embroidered white net. Her flowers were deep red roses and she wore a hat to match her bouquet. Mr. Harvey C. Fowler was groomsmen. Mrs. James was gowned in French flowered silk, with corsage of gardenias, and the bride's aunt, Mrs. Poole, wore ice-blue crepe satin with corsage of orchids. Mrs. Prior's gown was of wine triple sheer and her flowers, orchids.

After the reception the bride and groom left on a trip to Crossfield and the Pacific Coast and on their return will reside in Toronto. For travelling the bride wore a suit of black and white crepe, black accessories and black Persian lamb coat.

Mr. and Mrs. Prior have arrived in town and are guests of Dr. and Mrs. Whillans.

Army and Navy Pay Compare Favorably

According to figures issued by the Department of National Defence rates of pay in the Canadian Navy compare favorably with those in the Army. A full-fledged seaman, who is married, receives the usual \$1.85 per day plus a marriage allowance for his wife of 75 cents a day, or a total of \$78.00 a month. For a six months period of apprenticeship his daily pay may be only \$1.50 per day or a total of \$67.50, with marriage allowance. Few married seamen belong to this lower rating. Those who are will be advanced to \$1.85 within six months. Rates for a private soldier are \$1.30 per day, or \$39.00 for a 30-day month. If he has a wife she is given an allowance of \$35.00, the combined total being \$74.00 a month.

Comparative marriage allowance rates for wives and children in the Army and Navy combined with regular pay are listed below:
Wife and 1 child: Army, \$86; Navy \$85.50. Wife and 2 children: Army \$98; Navy \$93. Wife and 3 children: Army \$98; Navy \$100.50. Wife and 4 children: Army \$98; Navy \$108.

No allowance is made in the Army for more than two children. In the Navy allowance is made for children up to four in number.

The meeting which was to have been held on Sat. March 9th by A. J. E. Leisemer, C. C. F. candidate for Bow River Federal riding, in the Crossfield Community Hall East, has been cancelled. Mr. Leisemer will hold a meeting in the U. F. A. hall in Crossfield on Monday, March 18, at 8 p. m.

SLEEPING SICKNESS IN HORSES

Another campaign against sleeping sickness in horses has been announced by the Alberta department of Agriculture. Following conferences between farm ministers of the prairie provinces, manufacturers of Chick Vaccine have agreed to supply the preventive at prices which prevailed last year. "The vaccine is cheap insurance," it was declared. "And since this is a virus disease, no means are available for estimating its extent in any given year. Horse owners are advised to order their requirements from their druggist, veterinarian or municipal office."

KNOW THE FACTS ON THE ELECTION ISSUES

The provincial election date is drawing closer—district meetings have been held and will continue right up to the close of the campaign. The people seem to be taking a keen interest in the issues, and they should continue to attend every meeting possible so that they can discuss the issues intelligently with their friends and neighbors, thereby benefit with a fuller knowledge of the facts.

These meetings are arranged for you, attend as many as possible so that when voting day comes around you will know something about the candidates and what they stand for.

Municipal Taxation

Many ratepayers in considering the duties of the municipal council fail to realize the small proportion of the total tax levy which is controlled by the Council. It has been estimated that on an average only about 20 or 25 per cent of the total tax burden is subject to municipal council control. The whole question then of rise or fall in taxes must be limited—so far as local control is concerned—to one quarter of the total land levy. Almost the only important points at which economies may be effected are in administration costs and roads. Neither of these can be subjected to any considerable reduction, without a loss quite out of proportion to the saving. The responsibilities of a secretary-treasurer, for example, require expert training; ability, efficiency and good judgment. He is the administrator of large sums of money expended in many services. It has invariably proved good business to engage an experienced competent man and pay him a reasonable price for his services. Any other course may involve a municipal district in confusion and expense far exceeding any small salary saving. The proper maintenance and supervision of roads is another vexatious question. But if these services are permitted to lapse, the initial outlay on construction is wasted, and future expense piles

up. So the council has very definite limitations placed even upon controllable expenditures. Added to these perennial problems are later ones of unemployment and indigent relief. And councils are to be congratulated on having provided for a measure of relief to unemployed and indigents without resorting to a much greater levy on the taxpayer. Making income cover old and new expenditure has become a fine art with municipal bodies in recent years, and the problem is not simplified by the reduced assessments which have been made effective.

Included in uncontrollable elements is the Social Service tax imposed by the government, but

collected by the municipality. Good years or bad this 3 mill rate is a fixed charge and must be paid or added to the debt burden. Equally the school requisition is a tax which is passed on to the council and must be met if the children are to be given the required educational services. There is little alternative for the council in payment of their share of old age pensions, mothers' allowances, health sanitation, hospitalization, etc. These do not make up a large share of the total, but they must be paid. Unemployment relief has recently been lightened to some degree by senior governments assuming 80 per cent of the cost instead of the former 60 per cent, but indigent relief is still a sole charge on the municipality.

Municipal councils have set a very fine example in administration of the limited revenue at their disposal. Their record is more meritorious when it is considered that the ability of the taxpayer to meet his obligations is dependent entirely on the productivity of the land—a condition which varies greatly from year to year. —Vulcan Advocate.

Household Hints

Do you like a chocolate pie? A fruity pie? A pie with whipped cream? If so, how would you like a pie that combines all of these? "Yes!" is the answer with this recipe:

Orange Chocolate Cream Pie
3 squares unsweetened chocolate
2 1-2 cups milk
1 cup sugar
6 tablespoons flour
1-2 teaspoons salt
2 egg yolks, slightly beaten
2 tablespoons butter
1 teaspoon vanilla
1 baked 9-inch shell
1-2 cup cream, whipped
2 tablespoons grated orange rind
Add chocolate to milk and heat in double boiler. When chocolate is melted, beat with rotary egg beater until blended. Combine sugar, flour

IF YOU'RE FOOLED ONCE IT'S NOT YOUR FAULT

You can only be held to blame if you're fooled the SECOND TIME by the same person.

As a candidate for Banff-Cochrane constituency, I am not making lavish promises. We had an example of that kind of electioneering in 1935. We want no more of it!

I want to see sensible decent government and lower taxation. I want to see the tax money judiciously expended and not thrown away in wasteful and foolish experiments.

I can guarantee that the interests of agriculture will be looked after. I am a farmer and know farm problems.

My only responsibility, if elected, will be the interests of this Province, the welfare of the people who are my neighbors.

Let everyone get back to a basis of common sense.

and salt. Add gradually to chocolate mixture and cook until thickened, stirring constantly; then continue cooking 10 minutes, stirring occasionally. Pour small amount of mixture over egg yolks, stirring vigorously; return to double boiler and cook 2 minutes longer. Add butter and vanilla and cool. Turn into pie shell. Chill. Pie whipped cream lightly around edge of pie to form a 1-inch border. Sprinkle cream with grated orange rind.

Egg Curry for Lent

2 tablespoons butter
2 tablespoons flour
1 teaspoon curry powder
1-8 teaspoon paprika
1-2 tablespoon finely chopped onion
1-2 teaspoon salt
1 1-3 cups scalded milk
4 hard cooked eggs
1 cup cooked rice
Cream the butter and flour together. Add the curry powder, paprika, chopped onion and salt. Stir well, add the scalded milk and cook until mixture thickens. Chop the whites of the eggs and add them with the cooked rice to the above mixture. Serve in patty shells and garnish with grated yolk of egg.

Vary the flavor of inexpensive staple foods by using different spices on different occasions. Caraway, poppy and anise are not much used in this hemisphere, but their value is known in economical Europe. Add one of these to your bread, muffin recipe, rolls or cookies. Spices give a tang to insipid fruits. Use them in apple sauce and tomato soup. Pop up a choco with paprika. Add mustard to beans, and sage or bay leaf to meat loaf.

If a sediment has stuck in your water bottle or a glass vase, this may be removed with equal parts of vinegar and tea. If especially

obstinate, the sediment will come loose if you crush egg shells and add to the mixture.

Business Virtues

In reply to a questionnaire as to what traits they most valued in their employees, the majority of employers did not mention shrewdness, inventive genius nor any of the brilliant talents most of us covet. Instead, they named the simple, everyday virtues: honesty, integrity, faithfulness, character, ambition, neatness, loyalty to employer and co-operation—all of them possible to each of us.

That fancy whistling heard intermittently in the Kraft Music Hall during Bing Crosby songs is not done mechanically or by a bird imitator, but by Bing himself. It is entirely extemporaneous. Bing sometimes whistles part of a song instead of singing it. It is never planned in that way, and John Scott Trotter, the band leader, has no advance warning. When he hears Bing whistling, he softens his orchestra so the instruments will not overshadow him. Whistling has been one of Crosby's favorite diversions for years. He discovered that he was a whistler by accident—or by necessity once presenting itself. In the old days when he was a vocalist with a band, he had to sing without a copy of the song before him. Once he forgot the lyrics. To cover his error, he began whistling as fancily as possible. The audience liked it. Since then, he has tried to develop his whistling ability, and has succeeded.

Letters To The Editor

Editor, The Chronicle,
Dear Sir:

Would you kindly allow me space in your paper to explain the procedure in which Social Credit candidates are chosen by the Advisory Board. There has been a doubt in some people's minds as to the method of selecting a candidate. I am one of the zone organizers in the Banff-Cochrane constituency and had the privilege of sitting in on this advisory board last Friday in Calgary.

Mr. Aberhart, Mr. Tanner, Mr. Maynard, Mr. Fallow and Dr.

COAL A GOOD STOCK OF COAL

Emerson's Lumber Yard

Cross were there to conduct the meeting. The nine zone organizers sat in a group by themselves. Mr. Aberhart acted as chairman and directed us in the procedure we were to follow, and stated we were to do the questioning of the nominees and suggested a few questions to give us an idea as to how to proceed.

The three nominees selected at a previous nominating convention came in one at a time and took their seat at the end of the table. The zone organizers did all the questioning, with now and then a question from one of the cabinet ministers when they were not satisfied with the answer the nominee gave. After all the nominees had been in for questioning, the nine zone organizers were each given a blank piece of paper to vote for the nominee who in their opinion would make the best candidate to carry out the Social Credit program. The Cabinet Ministers did not vote.

Mr. W. R. King was selected as the Social Credit candidate for the Banff-Cochrane constituency by a vote of 6-3.

I hope this will clear up the matter as to how Social Credit candidates are chosen by the advisory board.

Thanking you for this space, I am

Yours truly
John L. Becker.

The World of Wheat

By H. G. L. Strange

The amazing delusion that the welfare of the people of any nation could be enhanced by that country endeavouring to supply all its own needs by curtailing foreign imports, is quite modern.

This madness never gripped the minds of the ancients.

The latest evidence about the high importance in which international trade was held by the ancients, is furnished by a recent biography, written by the eminent historian Mme. Tabouis, of Nebuchadnezzar, the great Chaldean King, who lived some 500 years before Christ. Nebuchadnezzar, we are told, toiled unceasingly to bring about a great flow into Babylon of the goods of India, Persia and Arabia, that is of gold, precious stones, tin, sandalwood, spices and cochineal dye, which the ladies of Babylon so loved, all to be exchanged for wheat, oil, wine, pottery, saffron, iron, bronze and purple cloths, the products of Chaldea.

"These exchanges," said the great King Nebuchadnezzar, "would make Babylon a city of merchants, and so the wealth of the world would be available to the people of Chaldea." For encouraging this foreign trade, King Nebuchadnezzar established in Babylon a great market at which

the wealth of the world could be exchanged, and where the consumers and producers of the world could meet.

Following factors have tended to raise price—Australia recently sold 7000 tons of wheat to Shanghai—Sweden goes off the gold standard—Broomhall estimates that Western sections of Europe have lost 6% of their wheat acreage from the severe winter—Australia's surplus and 80 million bushels of the new crop have been sold.

Following factors have tended to lower price—Number of lambs available for export from New Zealand will far exceed that of any other season—Rye production in 24 countries for 1939 is slightly larger than the 1938 output—Generous rainfall has been very beneficial to growing wheat crops in India.

Re: Sleeping sickness in horses (Encephalomyelitis)

Veterinary authorities believe that wide-spread vaccination two years in succession is the best means of creating immunity and preventing a virulent outbreak of the disease. The Dept. of Agriculture, Gov. of Alberta strongly recommend the vaccination of horses again this year.

IN ORDER THAT WE MAY HAVE SOME IDEAS AS TO THE QUANTITY THAT WILL BE REQUIRED FOR THIS SEASON, WE WOULD GREATLY APPRECIATE IT IF YOU WILL PLACE YOUR ORDERS FOR VACCINE AS SOON AS POSSIBLE.

Vaccination during March is advised so as to be completed before seeding starts.
